

Welcome to FCCC

AIRAC 2205

Introduction

Welcome to the FCCC Sector Files.

This Sector File covers the FCCC Brazzaville FIR which covers the airspace of Cameroon, Equatorial Guinea, Sao Tome and Principe, Gabon, Republic of Congo and parts of the Central African Republic.

This PDF serves as an introductory note to the Sector Files, what's included and where you can find additional support and resources if you need.

With AIRAC 2204, FCCC Sector Files are packaged with TopSky and GroundRadar plugins for Euroscope, allowing Controllers to perform their roles in a more efficient and professional way.

We hope you have as much fun controlling FCCC as we did developing and updating these files.
